Therefore, when Peruna was discovered by Canadian people to be a reliable remedy for these estarrhal diseases, it at once became a popular medicine, not only among individuals and in families, but in the great hospitals, where it was used as a preventive and relief in hundreds of cases.

RESOLUTIONS OF RESPECT.

John W. Fergusson.

The employing printers of Richmond met this afternoon at the office of Whittet & Shepperson for the purpose of taking suitable action on the death of their revered friend and fellow-craftsman, when the following was adopted:

"Thou shalt come to thy grave in a full age, like as a shook of corn cometh in in his season."

It was thus with our beloved friend, JOHN W. FERGUSSON, who passed from his earthly to his heavenly home on Saturday, February 27, 1909, in his eighty-eighth year.

Since 1836 he had been actively engaged in the printing business, sixtytwa years of which as an employing printer. In all these years he was an exemplay of all that was honest and true.

He was a man who won the confi-

printer. In all that was honest and true.

He was a man who won the confidence and esteem of all who knew him. Quiet and even reserved in his manner, he was yet ever ready to sympathize with others and to give them the benefit of his sound, practical wisdom. The keynotes of his character and life were strength, sympathy and charity, and his death has left a gap which cannot soon be filled.

His memory will long live in the hearts of those who mourn for him, and yet we are consoled by our firm belief that he will surely hear the Master say to him: "Come, ye blessed of my Father, inherit the kingdom prepared for you from the foundation of the world."

Resolved, That we attend the functal in a body, and that a copy of this paper be forwarded to the sorrowing family of the deceased.

Richmond, Va., February 28, 1302.
